MD ALFAZ KHAN

JAVA BACKEND DEVELOPER

✆ 8709480884 • ➤ DALTONGUNJ, JHARKHAND, INDIA

DETAILS

- Daltongunj, Jharkhand, India
- 8709480884
- alfaazk128@gmail.com

SOFT SKILLS

- Strong communication skills, both written and verbal
- Excellent problem-solving abilities
- Attention to detail and accuracy
- Can work independently as well as with the team

EDUCATION

B.Tech — Computer Science and Engineering
Mangalmay Institute of Engineering & Technology, Greater Noida
2021 — 2025 | 4 Years
CGPA: 6.7

Senior Secondary Education (12th)
Cambrian Public School, Ranchi
2019 — 2021 | 2 Years
Percentage: 77%

Secondary Education (10th)
Don Bosco Academy, Ranchi
2008 — 2018 | 10 Years
Percentage: 78%

PROFESSIONAL SUMMARY

Java Backend Developer with a strong foundation in Core Java, Object-Oriented Programming, Spring Boot, Hibernate, Spring Data JPA, RESTful APIs, Liquibase, PostgreSQL, and React. Passionate about building scalable web applications and continuously learning modern Java technologies. Seeking an opportunity to contribute to real-world software development while enhancing my technical and problem-solving skills.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React, Responsive Design
Backend	Java, Spring Boot, Spring MVC, Hibernate/JPA, REST API
Database	PostgreSQL, Liquibase (DB migrations)
Security	Authentication & Authorization, Spring Security, JWT
Build & Tools	Maven, Git, GitHub, Postman, IntelliJ IDEA, VS Code
Core Concepts	OOP, Collections, Exception Handling, Multithreading, Generics, Streams

INTERNSHIP

Java Backend Developer — Jaza Software OPC Pvt Ltd

Onsite Internship (6 months) | Apr 2026 — Sep 2026

- Developed and maintained backend REST APIs using Java and Spring Boot.
- Implemented Excel-based bulk upload functionality using MultipartFile, validation and entity mapping.
- Worked with Spring Data JPA, Hibernate and PostgreSQL for database operations.
- Followed Controller → Service → Repository layered architecture.
- Used Git/GitHub and Postman for version control and API testing.

Cyber Security Virtual Internship — Paloalto | Jan 2024 — Mar 2024

- Learned fundamentals of cybersecurity, network security, and common cyber threats.
- Gained exposure to threat detection, prevention techniques, and security best practices.
- Developed understanding of firewalls, network protection, and basic vulnerability identification.

PROJECTS

Task Management System

- Built a task management system using Spring Boot, Spring Data JPA, Hibernate, Liquibase and PostgreSQL to manage daily tasks.
- Implemented RESTful CRUD APIs to create, update, retrieve and delete tasks.
- Designed a relational database using JPA entity relationships and integrated Hibernate ORM for seamless database interaction.
- Applied layered architecture (Controller, Service, Repository) for clean, maintainable and scalable code.
- Implemented task prioritization, due-date management and exception handling to improve usability and maintain data integrity.

Dictionary Web Application

- Developed an English–Urdu dictionary web application using Spring Boot, Hibernate, Spring Data JPA, PostgreSQL and RESTful APIs, with a layered architecture for scalability and maintainability.
- Implemented JWT-based authentication, role-based access control (Admin & Member), user registration and login/logout.
- Built CRUD operations for dictionary management and bidirectional word search (English to Urdu and Urdu to English) with input validation.
- Created an Admin panel to manage dictionary entries and users, and a Member panel for secure word search and personalized access.
